

Connecting to OAHS WiFi – Android Users

1. Your android device must be running at least version 2.0 firmware
2. Use the 'Applications button to navigate to 'Settings'

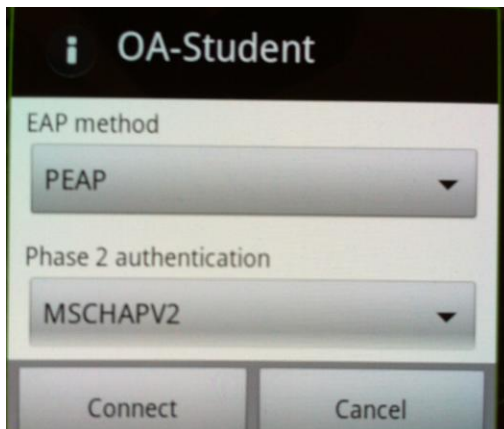

3. Choose 'Wireless & Networks', then 'Wi-Fi Settings'.

4. Choose 'OA-Student' or 'OA-Staff'.

5. Set 'EAP method' to 'PEAP' and 'Phase 2 authentication' to 'MSCHAP2'

6. Scroll down in this window, in the 'Identity' box type your computer login name, and in 'Wireless Password' type your computer login password. Leave 'Anonymous identity' blank, and connect.
